Agriculture Commissioner Hyde-Smith Works to Protect Grain Sorghum Producers

Mississippi Commissioner of Agriculture and Commerce Cindy Hyde-Smith announced approval by the United States Environmental Protection Agency (EPA) for the use of sulfoxaflor (CAS Reg. No. 946578-00-3) on grain sorghum in Mississippi. This specific exemption will aid in controlling the sugarcane aphid (*Melanaphis sacchari*), which is a destructive pest that can cause damage to the grain sorghum crop.

The product receiving this exemption is **Transform™ WG** (50% a.i. sulfoxaflor), which is manufactured by Dow AgroSciences. Applications may be made by ground or air in accordance with all label directions. Expiration for this specific exemption will be April 8, 2017.

The Mississippi Department of Agriculture and Commerce's Bureau of Plant Industry has authority under Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act to obtain an exemption from EPA for a non-labeled use of a pesticide if significant losses of an agricultural commodity are likely and if labeled products are not available or effective.

For additional information, producers may contact the Bureau of Plant Industry at (662) 325-3390 or toll-free at 1-888-257-1285.

###

About the Mississippi Department of Agriculture and Commerce

Under the leadership of Commissioner Cindy Hyde-Smith, the mission of the Mississippi Department of Agriculture and Commerce is to protect and promote agricultural-related businesses within the state and to promote Mississippi's products throughout both the state and the rest of the world for the benefit of all Mississippi citizens. This is accomplished through many bureaus and departments within the agency including the Mississippi Agriculture and Forestry Museum, Mississippi Farmers Market, Mississippi Agricultural and Livestock Theft Bureau, Bureau of Plant Industry, Market Development Division and Bureau of Regulatory Services.
