WELCOME TO THE 2017 DIXIE NATIONAL

Welcome to the 52nd Annual Dixie National Livestock Show and Rodeo! Each February, cowboys, cowgirls, 4-H and FFA members, rodeo queens, and spectators travel from all over the United States to the Mississippi State Fairgrounds in order to experience the largest rodeo east of the Mississippi River.

The Dixie National Livestock Show and Rodeo has grown into an event that draws over 100,000 visitors to the fairgrounds and generates millions of dollars for Mississippi's economy each year. Our dedicated team works tirelessly to ensure the livestock shows, equine events, agricultural showcases, and top class rodeo entertainment is a success year after year. From the professional cowboys and cowgirls that compete for titles to the young women who wear the crown of Rodeo Queen, this event continues to flourish as a tradition treasured by so many.

The Dixie National Junior Round-Up and Open Livestock shows continue to be the heart of the Dixie National by providing opportunities for Mississippi's youth and open show exhibitors to participate. These events had 1,800 4-H and FFA members and open show exhibitors and more than 2,500 head of livestock participate in 2016. The pinnacle of the junior livestock show circuit in Mississippi is the annual Dixie National Junior Sale of Champions. Proceeds from this event benefit participants in the form of scholarships and reached \$348,987 last year. In addition to getting a jumpstart on their college education, the fine young men and women involved in these events make memories and friendships that last a lifetime.

We are truly grateful to our loyal sponsors who give us the support to provide the level of entertainment and professional rodeo talent we provide every year. It is inspiring to see how this event has grown over the years and has been molded into the finest and largest rodeo east of the Mississippi River. Again, welcome and enjoy being a part of the Dixie National Livestock Show and Rodeo!

Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks, or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.

Only one person at a time shall lead animals into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2; Association Rules; Rule 800 Series; including Rule 800 - 810. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.

All animals exhibited are subject to DNA marker or blood type tests to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

If so, the following procedure will apply. All grey cattle and solid black cattle will show grey. Red, black & white speckled or red & white speckled cattle will show red. Cattle with questionable colored pigmentation may be entered in the color division the breeder selects, however, said cattle are subject to inspection by a three (3) member ABBA Color Committee. If the Color Committee disagrees with the breeder, the pedigree, features and color of said animal will then be considered on an equally weighted basis to aid in the final determination. The decision of the committee is final. Once animals have been classified, they will be stamped with their color classification and remain in that classification throughout their show career. Color classifications will only be done by the Color Committee at the International, National & All American Shows at a specified time. Any animal that is color classified and is shown at an ABBA Approved Show in another color classification will be in-eligible to show their remaining career. Both the exhibitor and owner of the animal that is shown in the wrong color division will be in-eligible to show animals for 13 months following the infraction.
In the get-of-sire and produce-of-dam classes, breeders will not be allowed to show cattle of mixed color in split shows. They will be entered as to the color division they are assigned by the Color Committee for the show. In shows that are not split there is no color requirement for the group classes.

22. Any animal that exceeds the weight and measurement requirements at the International Brahman Show, National Brahman Show, All American National Junior Show or any other designated show where weights and measurements are taken will be in-eligible to show at that show and any future ABBA Approved Shows until the next show that weights and measures are taken when they can requalify. Any animal that exceeds the parameters and is shown at an ABBA Approved Show before requalifying will be in-eligible to show their remaining career. Animals with illegal white (white in front of the navel), any indication of brindling (a color pattern characterized by red streaks mingled with black), or red animals with any unacceptable coloring (according to the IBBA Red Hide Color Scale-available at gobrangus.com-and including Brown, Grey, Yellow, Light to White, White Legs, or Black Muzzle) are ineligible for show. Any animal upon check in which does not have a legible tattoo or brand corresponding to its registration certificate is ineligible to show. Once disqualified due to incorrect or illegible tattoo/brand, animals cannot be re-tattooed and rechecked at show. The brand/tattoo can be corrected and rechecked at the next available show.
10. In IBBA sanctioned shows, no animal may be shown that has been artificially filled with any amount of liquid at any time once the animal enters the grounds of a show. The fitter or ranch entity involved with an animal being artificially filled will be banned from the show ring for one year and the animal will be disqualified from exhibition at that particular show. The official show veterinarian may administer liquids orally, if so needed without disqualifying animal(s) from exhibition.
11. UPDATED-No animal may be shown that has had any foreign objects glued to or otherwise attached in a manner so as to alter its conformation or change its appearance. Animals unethically fitted to alter the conformation or appearance of the animal will be disqualified. Tail ties and hair nets used on the tail and switch are the only exceptions.

BRANGUS

12. Paint or coloring agents of any kind are not to be used on any animal exhibited at IBBA sponsored shows. The use of aerosol products of any kind will not be permitted in the line-up area for the show. Animals will be towed in the line-up area prior to entering the show ring. Animals found in violation of these policies will be disqualified from showing.
13. All bulls 15 months of age or older that are exhibited at IBBA sponsored shows must have passed a fertility examination given by a licensed veterinarian to be eligible to show. The results of the examination must be available at check-in. Once a bull has a positive examination, retesting is not required.
14. All bulls (shown as an individual entry) must be shown with a nose ring or nose restraint with lead attached.
15. Weights and scrotal measurements will be taken at check-in at all four of the IBBA National Shows. Any bull can be weighed before they enter the show ring and cannot have more than a 7.5% gain. Anyone may protest a bull's gain and cause them to be weighed by submitting a written protest to the ethics committee prior to the start of the bull show.
16. All females 20 months of age or older exhibited at IBBA sanctioned shows, must have available at the time of check-in, a certificate of pregnancy issued by an accredited, non-owner veterinarian, or blood test results certificate. If the female is open due to being in an embryo transfer program, this fact must be verified in a written statement by a non-owner embryologist. If verification cannot be produced, the female may be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site and verify pregnancy. Females showing in the Senior Heifer Division of Spring Shows (January 1 through May 31) must adhere to the classifications and have an IBBA registered natural calf, not older than 250 days of age on show date.
17. All calves exhibited at the side of a Brangus female must be registered with the IBBA and meet all rules required for show eligibility and inspections of exhibits. Brangus and Red Brangus Cows exhibited in the cow/calf show must have Brangus or Red Brangus calves at side with R or RR numbers. Ultrablack and Ultrared Cows exhibited in the cow/calf show can have UB, UR, R, or RR calves at side.
18. Animals eligible to be shown in group classes must be entered and shown in respective individual classes. Cows exhibited in the cow/calf classes are not eligible for the group classes.
19. Entries that have not complied with all of the above rules will not be eligible to show, to receive premium monies, or earn points in the IBBA's Show Sire of the Year, Show Dam of the Year, Show Bull of the Year, and Show Heifer of the Year awards.
20. All IBBA and IJBBA members will abide by the show rules as adopted and posted online at gobrangus.com, regardless of show premium book. In addition, any show, fair, event or display in which Brangus, Red Brangus, Ultrablack or Ultrared cattle participate should follow these rules as adopted by IBBA. All entries are subject to the provision of a rule of the IBBA entitled "Inspection of Exhibits".

INSPECTION OF EXHIBITS

1. The IBBA and its representative have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited animals. Said authority shall extend to and cover the enforcement of all show rules as adopted by IBBA.
2. Each exhibitor shall submit his or her registered cattle to such tests and examinations as requested and/or required by the IBBA, its authorized representatives, or those of the relevant show.
3. For and in consideration of the opportunity to participate in any function each exhibitor hereby releases the Association, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with the administration or use of such test or examination and the resulting decision there from.
4. Dental Inspection: All entries may be classified for judging on an age basis and should be entered in class according to age. Teeth may be inspected by a veterinarian designated by the I.B.B.A. in order to determine whether dental development is within allowable limits for the class so entered. If the veterinarian determines that in his opinion dental development exceeds maximum allowable limits, the animal shall be moved to an older class as determined by the veterinarian and shall remain in that class until determined otherwise

BRANGUS

by subsequent mouthing or favorable appeal to the IBBA Board of Directors. If it is not possible to move an animal, the animal may not be exhibited in such show.

5. Any exhibitor desiring to dispute or challenge the results of any such test, exam, or show rule enforcement, as applied to his animals, shall do so in accordance with procedures established by the rules of the IBBA.
6. Appeal: An appeal from the decision of the veterinarian or designated association representatives designated by the I.B.B.A. under sections 2 and 6 of the Inspection of Exhibits may be made to the Executive Committee of the IBBA if the following requirements are satisfied: 1) the appeal is in writing and is signed by the appealing party; and 2) the appealing party files the written appeal with the IBBA Executive Committee as soon as possible after the veterinarian's or designated association representative's decision is rendered and in any event within six (6) hours of the time the veterinarian's or designated association representative's decision was made. If an appeal satisfying the foregoing requirements is filed with the IBBA Executive Committee, the Executive Committee shall hold a hearing at which the appealing party and the veterinarian or designated association representatives whose decision is being appealed shall present statements and other evidence that are relevant to the matter, following which the Executive Committee shall render a decision which shall be final and conclusive.

NEW - IBBA DNA TYPING FOR PARENTAGE VERIFICATION

Each Brangus animal for which an entry application or registration is received may be subjected to a DNA genotyping test in order to verify accuracy of parentage, according to Rules 5, 6, and 7 of the International Brangus Breeders Association (IBBA) Show Eligibility and Inspection of Exhibits. At selected shows and fairs, tail hair samples will be taken from all division champions and reserve division champions, as well as additional random animals, for the purpose of verifying parentage. Staff or a representative of IBBA will supervise the collection of tail hair samples, which can be taken at shows, fairs, and events where IBBA contributes premium money or where IBBA staff personnel participate. If a recorded parent is excluded (as a parent) as a result of DNA analysis, the owner of the animal may request, at his or her own expense, further determination of the actual parent. Failure to determine the sire and dam will result in the animal being listed in the IBBA Registry as a "Parentage Dispute," and the animal will be ineligible for future shows and exhibitions.

SHOW RULES VIOLATION POLICY

1. A show rules violation to be a valid complaint must be accompanied by a written statement describing the violation, the perpetrator of the violation, and signed by an active member of the IBBA. This written complaint will be presented to an Ethics Committee consisting of the Chairman, Vice-Chairman, Executive Committee Liaison, and an appointed member. All four people will be current members of the show committee. A minimum of two of these members must be present at the Show where the rule violation occurs. The Chairman shall appoint other members of the Show Committee to ensure a minimum of two on this committee at each IBBA approved show.
2. The Committee shall rule on the validity of the rule violation. The committee shall visit with the perpetrator, present the written complaint, and make a ruling on the complaint if valid.
3. The perpetrator is entitled to appeal any decision made by the Ethics Show Committee to the Executive Committee of the IBBA but the Executive Committee has the right to disqualify the perpetrator from the IBBA approved show after hearing an appeal. The Executive Committee's decision will be final.
4. Without the Executive Committee's decision, the perpetrator cannot be disqualified from this particular IBBA approved show. However, the animal can be disqualified by the Ethics Committee if the rule violation is deemed valid.
5. For and in consideration of the opportunity to participate in any Brangus function, each exhibitor hereby releases the Association, its officers, directors and representatives from negligence, any and all claims, suits, and judgments past, present, or future, arising from or connected with this policy and the resulting decision there from.

An animal is eligible to enter or compete in an open Charolais breeding class if registered in country of origin outside the United States and is eligible for purebred registry in the AICA Herdbook.

All animals to be eligible may be approved by a sifting committee designated by the AICA. Stall space will not be provided for any Charolais cattle that have not been accepted by the sifting committee.

All animals are subject to a medical examination in order to determine age, and each animal will be present in the show ring in its natural conformation without alteration or modification. Use of artificial tailheads is not permitted.

Any animal not having a legible tattoo or firebrand number is ineligible and will be barred from showing.

Bulls from classes 40, 41, 44, 45, and 46 must have a valid, satisfactory semen test certificate in possession. This certificate is valid for the entire show season.

All animals shown in individual classes must be weaned, with the exception of the Cow-Calf Class and calves at the side of females calved after September 1, 2014. Silicone injection or other injection for cosmetic purpose shall be prohibited. Anabolic steroid use shall likewise be prohibited and any animal testing positive for anabolic steroid or diuretic use shall be presumed to be altered and modified.

Effective October 22, 2004, at any American-International Charolais Association (AICA) sanctioned show (including shows receiving AICA premium funding and/or qualifying as a Roll of Excellence Show), the use of a coloring agent, flock and powder is prohibited. Senior/Junior Yearling Pregnancy Rule for exhibitors at all Open shows: If a Purebred Female has a ShorthornPlus calf at side, it is not eligible for the Purebred Shorthorn Show, however it is eligible for the ShorthornPlus show. All females 20 months old at the time of the show need to have a 60-day pregnancy verification signed by an accredited, non-owner veterinarian at the time the female is processed for the show and are subject to a blood test to prove pregnancy. Exhibitors may be asked to present said verification upon the request of the Show officials or ASA representatives. If verification cannot be produced, the female may be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site, and verify a 60-day pregnancy. Any infractions against this rule will lead to disqualification of that animal for that specific show.
